

State of Wisconsin COVID-19 Response

Situation to Date
26 APRIL – 0700-1900

Summary

The county/tribe PPE survey is now available, and responses are due by 6pm on Monday, April 27. The survey is to capture all county/tribal needs for both medical and non-medical PPE requests. A delivery location must be provided as shipments will be going directly to the county/tribe. Counties/tribes will then determine how the supplies received are allocated locally. Weekly, counties/tribes will be required to submit a report that details how distribution is made. Additionally, for federal cost reporting counties/tribes are required to track PPE type, quantity, date distributed, and recipient agency name, address, and city: <https://www.surveymonkey.com/r/9Z6J3SR>.

- April 27 survey due by 6pm.
- April 28 SEOC determines allocations.
- April 29 SEOC warehouse processes allocations. Ops shares allocation amounts.
- April 30 distribution begins.
 - Counties/Tribes - direct delivery
 - State agencies - warehouse pick-up

The SEOC remains elevated to a Level 1 activation and continues with 24-hour operations.

Case Numbers

	Globally (Data from WHO)	United States (Data from CDC+)	Wisconsin (Data from DHS)
Confirmed Cases	2,804,796	895,766*	5,911
Negative Test Result	--	--	59,235
Hospitalizations	--	--	1,397 (24%)
Deaths	193,710	50,439*	272

* Total cases includes 3,981 probable cases and total deaths includes 5,862 probable deaths.

+ Numbers updated Saturday and Sunday are not confirmed by state and territorial health departments. These numbers will be modified when numbers are updated on Monday. CDC does not know the exact number of COVID-19 illnesses, hospitalizations, and deaths for a variety of reasons. COVID-19 can cause mild illness, symptoms might not appear immediately, there are delays in reporting and testing, not everyone who is infected gets tested or seeks medical care, and there may be differences in how states and territories confirm numbers in their jurisdictions

Resource Request Follow-Up

Operations is working very diligently to respond as quickly as possible to very urgent non-PPE needs. If there is PPE **requested but not included in the survey** for distribution, you will be notified. Every new request that is entered into WebEOC is burying original requests for critical resources right now that we might be able to source.

If you have questions about where a resource request is or need a status update:

- Check WebEOC – on requests that are actively being worked, Ops/Logistics teams are entering in notes.
- Please provide Operations with the Resource Request number assigned to it in WebEOC. This allows for faster follow-up.
- Please send us an email at DMAOps@wisconsin.gov.

Please do not enter PPE or hand sanitizer requests into the resource requests board on WebEOC.

Unmet Needs

The current unmet needs are being routed through Operations and some identified unmet needs have fallen to task forces, which include Isolation Facilities, Contact Tracing/Surveillance, Specimen Collection/Lab Capacity, Surge, Mortuary Planning, Data Analysis, Community Resilience, PPE & Essential Supplies, Logistics, Future Operations, and Staff Augmentation.

State Agency Response Overview

DHS	DHS staff continues to process PPE reserve requests from long term care facilities. To date, DHS has processed over 20 requests. DHS, in coordination with additional SEOC partners, continues to work toward solidifying the process for processing specimen collection requests. This includes the flow of how these requests will be processed once received, forms to support the necessary calls, and additional documentation as necessary.
