The SEOC remains elevated to a Level 1 activation and with daytime hours operations 8-6pm and 24 hours through the Wisconsin Emergency Management Hotline.

Governor Evers press releases and media briefings related to statewide mandates:

May 1, 2020

- Gov. Tony Evers announced that the State Emergency Operations Center, Wisconsin Department of Health Services (DHS), Wisconsin Emergency Management, and Wisconsin National Guard are working with local health departments to create community testing events in places with a known lack of access to testing or where additional testing is needed because of high rates of COVID-19.

April 30, 2020

- Nothing significant to report

Current Incident Objectives and Planning Activities

- Complete roll-out of SEOC staff surge team position-specific training for operations, planning, and logistics by May 4.
- Establish a weekly rhythm in coordination with the supply team on the allocation of PPE to counties/tribes and state agencies by May 4.
- Expedite processing of resource requests for testing to support rapid expansion of testing and containment of emerging outbreaks.

Resource Request Follow-Up

Operations is working very diligently to respond as quickly as possible to very urgent non-PPE needs. If there is PPE **requested but not included in the survey** for distribution, you will be notified. Every new request that is entered into WebEOC is burying original requests for critical resources right now that we might be able to source.

If you have questions about where a resource request is or need a status update:

- Check WebEOC – on requests that are actively being worked, Ops/Logistics teams are entering in notes.
- Please provide Operations with the Resource Request number assigned to it in WebEOC. This allows for faster follow-up.
- Please send us an email at DMAOps@wisconsin.gov.

Please do not enter PPE or hand sanitizer requests into the resource requests board on WebEOC.

Unmet Needs

The current unmet needs are being routed through Operations and some identified unmet needs have fallen to task forces, which include Isolation Facilities, Contact Tracing/Surveillance, Specimen Collection/Lab Capacity, Surge, Mortuary Planning, Data Analysis, Community Resilience, PPE & Essential Supplies, Logistics, Future Operations, and Staff Augmentation.

State Agency Response Overview

DATCP DATCP, Pork Association partner on 'Passion for Pork' initiative.
The Wisconsin Pork Association (WPA) and the Wisconsin Department of Agriculture, Trade and Consumer Protection (DATCP) have joined forces to start a new program

connecting Wisconsin pork producers to local meat processors, consumers, and the growing number of people experiencing food insecurity during COVID-19. Through the program, called “Passion for Pork,” WPA and DATCP are connecting Wisconsin pork producers with smaller, local meat processors who are extending their hours of operation to process and package the pork to help meet the growing demand for food bank and food pantry resources.

DOA Staff Augmentation Update:
68 new staff members assigned and available to DWD by Monday, May 4. Additional staff identification underway to complete the request for 132.

Assessing the ability to target 100 new contact tracers per week for a total of 200-300 more contact tracers by 5/26/2020. Goal of 500 new tracers, with the ability to hire more, by the end of May.

Several existing and new requests in process including new request from DHS re: additional data analysis and epidemiologists.

DOC DOC received the SEOC PPE shipment and will be working on distributing to individual sites in need.

Sites continue to work on production of cloth masks for all staff and persons in DOC care.
